GREAT FOR NEW RESIDENTIAL & SPORTS FLOORS!

PoloPlaz NSB Sealer is a commercial grade, waterborne sealer designed for use on new floors requiring waterborne seal and finish. Finish manufacturers have always warned against waterborne products on new installations. The risk of panelization has always been too great... until now.

When used properly, you can confidently apply NSB on new installations without the fear of damaging the wood from sidebonding and panelization. Great for recoats too and cleans up easily with water.
